

CovidCare provides education and support to your members

CovidCare helps members become more educated about COVID-19 and how to stay safe. It also provides members who test positive with unique support and care.

- ✔ The COVID Facts Now microsite features health and SDOH resources, bilingual educational videos, prevention and safety tips, and much more. It is white-labeled and can be linked to your state, health plan, or corporate website.
- ✔ CovidCare Kits include biometric devices that help patients monitor their temperature and blood oxygen levels, along with items designed to reduce the stress of isolation.
- ✔ CovidCare coaches provide daily video conferencing calls to members who have tested positive. Coaches review biometric data and provide support and education to your members.
- ✔ Multimedia COVID-19 education includes important health and safety reminders in text, email, print, and video.
